BOSTON HARBOUR.—Notice is hereby given that from about May 20 to July 20, 1899, a bright light may appear from the standpipe of the New England Gas and Coke Company, at Everett, Boston harbor, caused by the burning of a large quantity of surplus gas, at a height of about 180 feet above mean high water.

Bearings (magnetic) and distances of prominent objects from the standpipe are: Boston Lighthouse, SE. ½ E. 84 nautical miles; South Boston Range Front Light, S. by E. 33 nautical miles; Bunker Hill Monument, SSW. ¼ W. 5-6 nautical miles.

By order of the Lighthouse Board:
FRANCIS J. HIGGINSON,
Rear Admiral, U. S. Navy, Chairman.

PORT NOTES.

The tug Triton, lying at Colonna's wharf yesterday, was cut under the overhanging of a barge by the tide and had her deck house considerably injured. She will repair here.

Parties from New York are understood to be in Norfolk looking to the buying of the schooner Georgia Clark, now lying on Berkley flats.

The schooner Maud Seward, lately sprung leak while bound out for Bermuda from Baltimore and put back for repairs, is now repaired and passed through the Capes, bound out, yesterday.

The schooner "C." Captain Instey, while bound in the bay with a load of lumber Monday night, was run down by the fruit steamer "Leon" and badly damaged. She was struck aft of the mizzen mast on the starboard quarter and her deck load of lumber driven with such force to port, that the mizzen mast was snapped and broke in three pieces. Her hull was damaged and she was disabled. She was taken in tow by the tug Alert and towed to Baltimore. There a survey will be held on her. She was taking lumber from North Carolina to Baltimore.
